Caro Claudio,

It was very kind of you to have dinner with us last Friday. I very much enjoyed our conversation and to know the extremely interesting award that you organize for Doctorates at University. I have perfectly received all documents.

I must tell you that I was astonished for your Magazine. It is amazing the way you present information of activities and articles of research so well done and over 32 pages every month! Congratulations!

So, I thought that instead of just informing about the award it would be better for the international philatelists who doesn't know yet CIFO, to make a presentation of you and the Notiziario and then, in a few days inform about the award in a different article, if you agree.

The presentation is already at the front page of the Website of the European Federation www.fepanews.com

Please have a look at it and if you want to change something just tell me.

Thank you very much for sending the magazine of the last years. It is enough the digital version. Grazie mille.

With my renewed gratitude and felicitations,

Best regards,

José Ramón
